

Certificate

Eddie Nulty

Successfully participated in a
TRAINING COURSE
at **TECHNICIAN** level

November 2013

Held at the Bauer Compressors Asia Training Centre,
Phuket, Thailand.

Construction, function, service and maintenance details of
our high pressure compressors were included in the
programme, as well as the most significant regulations of
EN 12021 and other international breathing air standards
concerning air purification systems.

Herewith the participant is certified to conduct services
and repairs on our high pressure breathing air compressor
range. Valid for 3 years after date of issue.
